

Kudos to Behavioral Healthcare Teams

Giving Credit Where Credit is Due

50% of the early pandemic decline in discharge volume has returned.

Despite all the obstacles care teams continue to face, neither patient improvement nor satisfaction have changed.

2019-2021

4 out of 5
Patients Improve

Satisfaction Over Time Has Not Changed

Although things may feel unstable, MHO's data shows the care you provide is consistently necessary, effective, and appreciated by your patients!
